Club News

- Status of the Red Shed

For those who have been long time IWLA members, we have been discussing the condition of the red shed.

This shed is primarily used for storage of paper targets and target butts.

It also houses all the 3-D targets used on the Outdoor Range and the maintenance supplies (lawn mowers, blowers, shovels, etc.).

For years, the roof has been leaking and now the floor is in questionable shape.

Reconstruction of the shed will begin shortly but will be done primarily by volunteers.

If you would like to help, please contact Fred Ansick at fansick@verizon.net.

Depending on the amount of volunteers, this may take a couple of months, so please bear with us during the reconstruction.

There is no intention to shut down the Outdoor Range during this reconstruction period, however the power to the lights will be disconnected.

There will be no effect of the use of the 3-D range.
